

NetBook Depot™ Product Family

Introducing the versatile NetBook Depot™. This product is designed as a unique alternative to the NetBook Cart. The NBD is perfect for those smaller classrooms or training centers. Tablets can also be stored and charged in the NBD (no USB charging or syncing).

This unit is stackable and can be placed side by side without cord interference making it space efficient. Available with or without casters.

NetBook Depot™ - All Models

- Stores 12 netbooks or tablets.
- No timer needed.
- Retractable locking metal door keeps contents secure.
- Rear IT access panel allows for easy set up and maintenance.
- Ventilation pattern creates airflow for charging units.
- Features Power Management Shelf which keeps cords neat and organized.

NetBook Depot™ - Standard Model

- Able to mount under a desk or table to conserve floor space.
- Most cost effective model.

NetBook Depot Cart™

- 3" or 5" Caster options for mobility throughout a facility.
- Drawer base for storage of manuals or peripherals.
- 1-1/8" thick laminate top for smooth writing surface and furniture appearance.

Power Management Divider™

- Provides a cord management solution by wrapping the netbook or tablet power cord neatly around the shelf.
- Divider shelves are removable for easy set up.
