

TambourDoor™ General Information & Specifications

GENERAL INFORMATION

Product Description: The TambourDoor™ is designed to retrofit onto new or existing open shelf storage units to ensure the security and privacy of medical records and other types of sensitive media. Easily mounted onto most shelving units, the TambourDoor™ includes a spring tensioned door which rides along a track, recessing into a top mounted housing, allowing for quick access to media. All doors include a conveniently located built-in handle for easy open/close. TambourDoor™ is available in five standard widths and able to install onto most existing shelving up to 88" high, making it an ideal HIPAA solution. Each TambourDoor™ unit includes all necessary mounting hardware and lock with two keys.

SPECIFICATIONS

Upright Rails: Each upright is formed of a one piece 16 gauge cold rolled steel channel running the entire height of cabinet. Each door assembly includes one pair of rail assemblies designed to install flush to face of shelving, and are securely fastened with appropriate mounting hardware. Each Upright Rail includes a formed c-shaped molded PVC guide-channel allowing for smooth door operation. Each rail assembly includes interlocking tabs allowing for proper spacing when attached to Door Base.

Door Base: Formed of 18 gauge cold rolled steel into a one-inch high channel. Door Base is positioned on the floor, includes corresponding slots for proper spacing for upright rails, and pre-punched for lock mechanism.

Door Housing: Formed of 18 gauge cold rolled steel into a box shape and designed to fit the TambourDoor™ mechanism. Includes pre-punched holes for proper alignment and attachment onto all Datum shelving. All mounting hardware included. Door Housing will add 9" to the height of shelving.

Tambour Door: Manufactured of plastic and extruded from high strength, wear resistant thermo plastic. All doors include factory pre-tensioned spring-loaded mechanism for proper balance and movement of door. All doors have built-in handle located approximately 32" from floor and include pincer-action lock with two keys. Locks are random keyed. Master keys are available.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint.

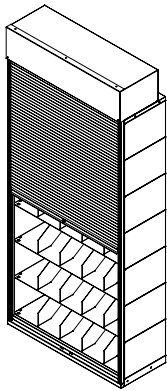

FOR ADDITIONAL INFORMATION ON ORDERING, TERMS AND CONDITIONS, PRICING AND SHIPPING, PLEASE CONTACT AMERICAN FILING SOLUTIONS.

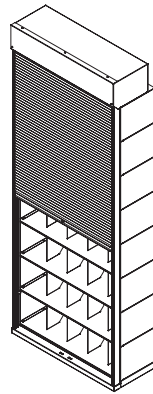

How to Order

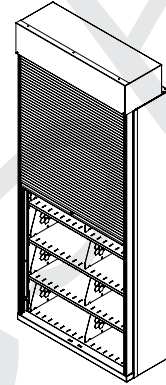

TambourDoor™ Systems are designed to work in conjunction with stationary shelving only! Tambour Door Systems™ are designed for 4Post™, ThinStak® and Vu-Stak® Shelving. For any compatibility issues with other manufacturer's shelving, please consult us before ordering.

ThinStak® TambourDoor

Vu-Stak® TambourDoor

4Post™ TambourDoor

STEP 1

Determine overall height and width of cabinet.

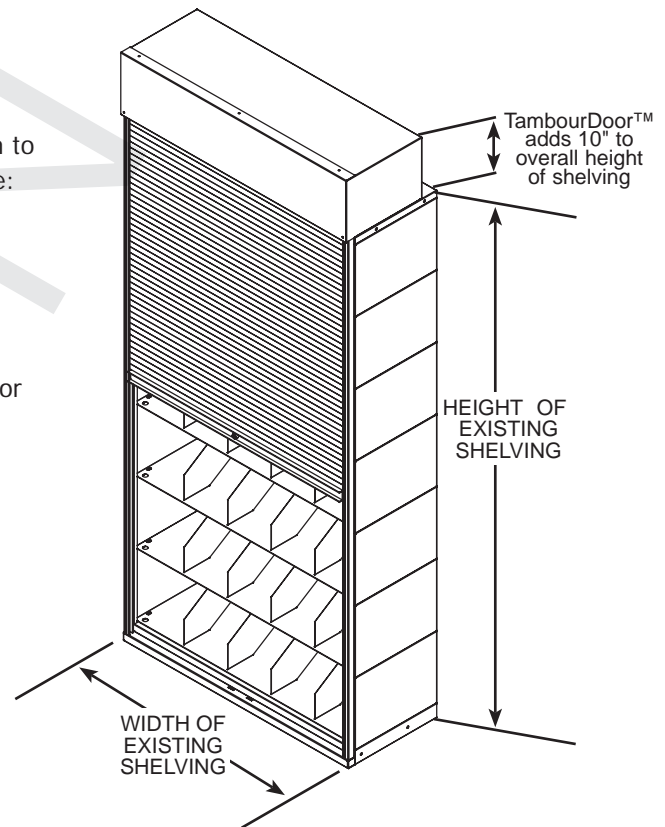

Refer to diagram for proper dimensions. The TambourDoor™ mounts to the top of each shelving unit, increasing overall unit height by 10". Consult local fire code regulations when any fire sprinklers are visible. When calculating overall height, dimension to be rounded to nearest whole number where applicable. Example: 64-1/4" high to be rounded to 64" high.

STEP 2

Specify color.

TambourDoors™ are available in two colors only. Refer to the following chart for color specification. Choose standard paint color selection for door frame and housing. See chart below for the corresponding tambour color.

Standard Datum Paint	Charcoal Gray	Putty
T22 - Warm Brown	X	
T15 - Bone White		X
T46 - Soft White		X
T48 - Ivory		X
T45 - Dark Gray Metallic	X	
T23 - Medium Gray Metallic	X	
T34 - Light Gray Metallic	X	
T56 - Tan Metallic	X	
T25 - Black	X	
T86 - Gray Mist	X	
T47 - Light Gray	X	
T12 - Dove Gray	X	
T29 - Sage	X	
T41 - Slate Blue	X	
T42 - Tech Blue	X	
T17 - Burgundy	X	
T58 - Blue	X	
T93 - Safety Yellow	X	
T27 - Industrial Red	X
