Blueprint Stand with Brackets

Assembly Instructions

for MODEL 613

- Slide Horizontal frame (part A) 6" into (part B) lower two side frames. Socket holes should face down. Insert setting knobs (part G) into socket holes. Do not tighten.

- Screw (Part H - screws) Cross Bar (Part C) into the two side frames (part B), Placing the cross bar between the two side frames.

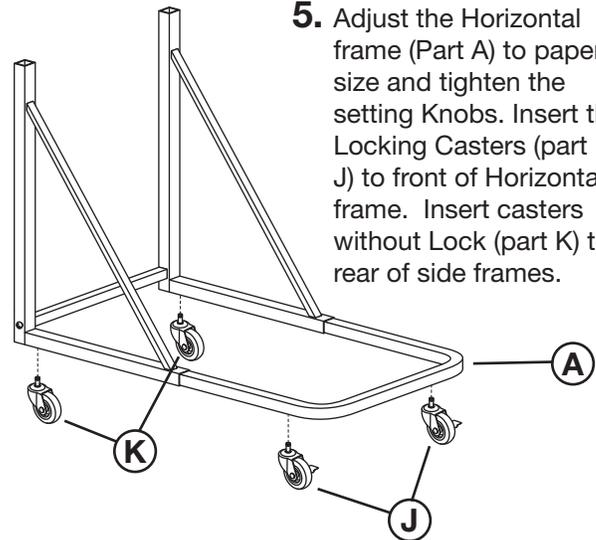

- Slide Vertical Frame (Part D) into lower frames. Adjust to paper size. Insert setting Knobs (Part G) into socket holes from back & tighten.

- Insert Tube Plugs (Part L) into top of vertical frame.

- Adjust the Horizontal frame (Part A) to paper size and tighten the setting Knobs. Insert the Locking Casters (part J) to front of Horizontal frame. Insert casters without Lock (part K) to rear of side frames.

- Place spring (Part F) onto top of hanger (part E) small end down (x12). Guide hanger into holes of vertical frame, placing the spring side into top holes first, and then push up hanger placing the bottom of hanger into bottom holes.
