

# Tool & Die Rack

For extra heavy-duty storage, *Heavy Duty Reinforced Shelving* offers a reinforced shelf capacity of 2,000 lbs. Constructed of 16-gauge steel shelves and 14-gauge posts and supports, the unit's superior strength makes it perfect for storing dies, motors, jigs, fixtures and other heavy materials. Braceless construction allows easy access from all four sides, and the smooth steel surface makes placing and removing items much easier than on wood or wire shelves - simply slide items on and off. A simple design, uncommon for a unit built to withstand such loads, makes it quick and easy to assemble or rearrange.

**Please Note**  
 Standard Color: Medium Grey  
 QuickShip Color: Medium Grey

# Bulk Storage Racks: Uprights

Here's the most economical way to store bulky items. *Bulk Storage Shelving* allows clear and convenient access from the front or rear. It is designed to handle capacities of 10,000 lbs. per upright set. To configure your own storage system that fits your special needs, select an upright frame from below depending on your available height, then select components.

10,000 lbs. capacity based on maximum vertical distance of 60" between any two beams on floor.

National Motor Freight classification: Class 70

# Bulk Storage Racks: Components

Combine the deck levels and decking below with Bulk Storage Upright Frames (page 2) to create an economical method for storing bulky items. Deck levels include beams and supports to create one level of shelving which will accommodate any of our three decking options. Choices of decking include corrugated steel, wire mesh\* or particleboard. Particleboard decking can be purchased from us or obtained locally.
