HEIGHT
ADJUSTABLE
TABLES

A healthier workplace

FreeFit™ height adjustable tables allow you to incorporate healthy movement into your workday. Move freely from sitting to standing to support the task at hand. FreeFit has a “whisper quiet” sound insulation option that makes adjustments as quiet as a library. The table can be used individually or in conjunction with Global desks.

'L' workstation shown in Designer White top with Designer White legs.

Freedom to fit anywhere

The freestanding, universal design of FreeFit integrates easily into an array of workplace layouts. A mobile option with casters adapts to today's flexible office configurations.

Rectangular table shown in Designer White top with Designer White legs.
